Support for immunity

Properties

The product is a source of zinc and copper in the form of highly digestible amino acid chelates.

Zinc helps in:

- enhancing immunity and protects cells against oxidative stress
- maintaining proper fertility, proper reproductive functions and helps in proper synthesis of DNA.
- maintaining proper testosterone levels in the blood.
- maintaining the proper metabolism of macronutrients, including fatty acids, carbohydrates and is essential in the proper synthesis of protein, which contributes to the maintenance of healthy bones, hair, nails and skin.
- maintaining the proper metabolism of vitamin A, which is related to maintaining proper vision.

Copper helps with:

- proper functioning of the immune and nervous systems,
- in maintaining proper pigmentation of hair and skin
- proper transport of iron in the body.

Selen 200 µg

60
capsules

Immune system

Properties

Especially recommended in states of deficiency of this element.

Selenium plays a very important role in the body. Among its many properties, strengthening of the immune system is the most important. After ingestion, the body increases the level of produced immune bodies, lymphocytes and macrophages.

Selenium supports the body's fight against various bacteria and viruses. Especially it protects against cold sores and shingles.

When taken regularly, the product reduces the risk of prostate, rectal, lung, cervical and ovarian cancer.

Selenium helps stabilize the metabolism of the thyroid hormone, relieves menopausal symptoms and adds energy.

Vitamin B12	0,75 µg

Properties

A specialist medical food, nutritionally complete, with a composition taking into account the body's needs for nourishing people in convalescence after illness, surgery, malnourished and debilitated people.

Advantages

Cream contains all the necessary nutrients: protein, carbohydrates, fat, dietary fiber and a complete set of vitamins and minerals. The concentrated form of the product facilitates administration and does not additionally burden the patient's body. The protein present in the product is the highest quality, hypoallergenic poultry protein hydrolyzate, with a unique, patented structure (Patent No. 228665). The product has also been enriched with L-glutamine and L-arginine, amino acids of key importance in the convalescence process. The product is clinically lactose free.

Indications

For the dietary management of convalescence caused by:

- malnutrition
- weakness
- wasting of the body related to:
 - hospitalization
 - perioperative conditions
 - oncological diseases
 - or in elderly patients*

Properties

Recomed for DIABETICS is a nutritionally complete food based on whey protein for the dietary management of disease-related malnutrition in diabetic and hyperglycemic patients

Advantages

RECOMED for DIABETICS contains all the necessary nutrients: protein, carbohydrates, fat, dietary fiber and a complete set of vitamins and minerals. The concentrated form of the product facilitates administration and does not additionally burden the patient's body. The protein present in the product is the highest quality whey protein concentrate (WPC) with a biological value of BV 104.

Directions for use: pour the contents of 1 sachet into a shaker containing 200-250 ml of water, shake until dissolved. Consume immediately after preparation.

Indications

For the dietary management of convalescence caused by:

- malnutrition
- weakness
- wasting of the body related to:
 - hospitalization
 - perioperative conditions
 - oncological diseases
 - or in elderly patients*

daily dose - 1 sachet (13 g + 250 ml of water)

Vitamin A	120 µg	(15%*)
Vitamin C	80 mg	(100%*)
Zinc	12 mg	(120%*)
L-Arginine	5000 mg	
Collagen hydrolyzate	3 g	

* - % of nutrient reference value

Properties

A specialized product containing: L-arginine, collagen hydrolyzate, as well as vitamins A and C and zinc chelate.

Advantages

- **L-arginine** – provides the necessary metabolites for the formation of collagen1.
- **Vitamin A** – plays an extremely important role in the production of collagen, cell division and differentiation. It helps maintain healthy skin and plays a role in the process of cell specialization.
- **Vitamin C** – helps in the proper production of collagen to ensure the proper functioning of the skin, and also helps protect cells against oxidative stress.
- **Zinc** in the form of amino acid chelate - takes part in the process of cell division, helps protect cells against oxidative stress and helps maintain healthy skin.

Indications

- at risk of developing pressure ulcers
- with hard-to-heal wounds
- in the periods of radiotherapy, postoperative
- during convalescence
- after strokes in the chronic phase

Radioskin

150
ml

Properties

Radioskin is a cream with a unique composition beneficial for irritated and dry skin, also after radiotherapy and chemotherapy.

Radioskin helps to reduce skin irritation due to its excellent absorption and nourishing properties. Supports the regeneration process by intensively lubricating and moisturizing the skin.

Advantages

The beneficial effects of Radioskin are provided by ingredients such as:

- Panthenol moisturizes, soothes irritations, regenerates, gives the skin softness and elasticity
- Allantoin moisturizes, soothes and accelerates skin regeneration, giving it a flexible and velvety appearance
- Hyaluronic acid is a natural component of the skin, responsible for its proper hydration
- Almond oil regenerates, perfectly moisturizes and softens the epidermis.
- Olive oil accelerates regeneration and provides a feeling of skin hydration
- Licorice extract soothes and soothes irritations
- The brown algae extract accelerates the regeneration of the epidermis and has nutritional properties
- Calendula extract soothes irritations by reducing erythema and redness
- Karka cane extract has firming, softening and smoothing properties.

Cranberry EXTRA

In urinary tract infections

30
capsules

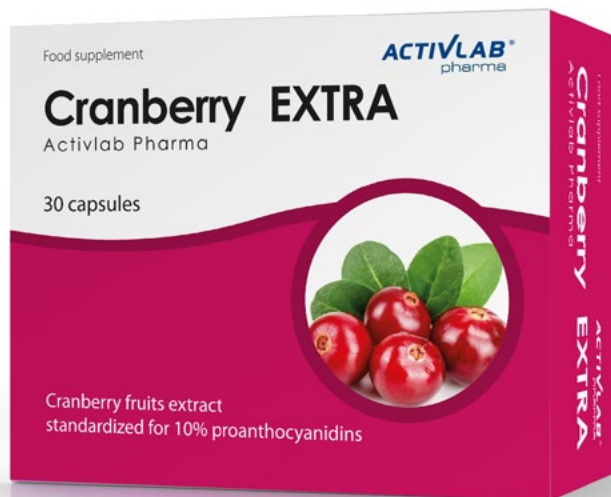

Properties

Product containing natural cranberry fruit extract standardized for 10% proanthocyanidins (PAC) and parsley extract.

Cranberry is often used most often in urinary tract infections – it reduces the adhesion of bacteria to the walls of the bladder, while reducing the amount of these bacteria in the urine.

Indications

- with complaints related to inflammation of the urinary tract
- with recurrent urinary tract infections.
- for those with diabetes
- for people with a catheter fitted

Daily portion	1 capsule
Cranberry fruit extract (Vaccinium macrocarpon)	350 mg
in which proanthocyanidins (PAC)	35 mg
Parsley extract (Petroselinum crispum)	100 mg

Nephrolysin COMPLEX

30
capsules

Supports kidneys and urinary tracts functions

Properties

Nefrolizyna COMPLEX Activlab Pharma is a combination of 7 plant extracts that support the functioning of the urinary tract. The use of natural ingredients such as: parsley root, horsetail herb, couch grass rhizome, birch leaf, lovage root, goldenrod herb, knotweed herb:

1. Supports the proper functioning of the kidneys
2. Supports the proper functioning of the urinary tract
3. Contributes to the increase of the elimination of water from the body
4. Helps to eliminate pathogenic bacteria from the urinary tract.

Daily portion	1 capsule
parsley root extract	20,10 mg
horsetail herb extract	13,40 mg
couch grass rhizome extract	40,20 mg
lovage root extract	13,40 mg
goldenrod herb extract	11,50 mg
birch leaf extract	26,80 mg
knotweed herb extract	320 mg

ProstACTIV EXTRA

Supports maintaining proper functioning of prostate.

30
capsules

60
capsules

Properties

Prostactiv Extra is a product addressed to men suffering from ailments related to prostate growth. The main components of the product:

Extract from the lateral fruit (*Sabalisa serrulatae*) – Relieves the troublesome symptoms of an enlarged prostate. Regular use of the preparation not only helps to maintain the normal condition of the prostate gland, but also leads to a decrease in the amount of urine in the bladder. Extract from the lateral fruit is also a source of fatty acids supporting reproductive functions.

Indications

- Alleviation of ailments associated with prostate hyperplasia such as:
- Weak urine flow
- Frequent pressure on the bladder
- Frequent urination
- In the night.

Daily portion	1 capsule
Lateral fruit extract (<i>Sabalisa serrulatae</i>)	320 mg

UNIPRO®

Proctoactiv

20
capsules

Strengthening the veins

Properties

ProctoActiv Activlab Pharma is a product containing diosmin and hesperidin in its composition. Supplementing the diet with these ingredients is especially recommended to strengthen the veins, in the treatment of venous insufficiency and haemorrhoids.

Hesperidin has vascular protective and anti – inflammatory properties, which is especially important in the treatment of haemorrhoids.

Diosmin is anti – haemorrhagic, and its use helps to relieve persistent itching and burning – bothersome symptoms resulting from haemorrhoids.

Daily portion	1 capsule
Diosmin	450 mg
Hesperidin	50 mg

ColoNormax EXTRA

300 g
of powder/jar

***Regulates intestinal function, prevents constipation,
cleanses the intestines and whole organism***

Daily portion	10 g
Seed coat of the Plantago ovata plant (Plantago ovata)	5,00 g
Chicory inulin (Cichorium intybus)	4,75 g
Lactobacillus acidophilus	1×10^8 cfu
Bifidobacterium lactis	1×10^8 cfu

Properties

A set of natural ingredients that provides intestinal health.

Advantages

- Contains the seed coat of the Plantago ovata plant, chicory inulin (Cichorium intybus) and probiotic bacteria of the genus Lactobacillus acidophilus and Bifidobacterium lactis.
- Has a delicious apple flavour
- Package containing 100 grams of PRODUCT EXTRA

Indications

- In constipation
- In maintaining healthy intestines
- Helps to control weight
- Helps regulate blood sugar levels

DebuActiv Forte

60
gastro-resistant
capsules

Sodium butyrate is recommended for dietary management:

- with intestinal hypersensitivity (irritable bowel syndrome - IBS)
- in intestinal microflora disorders
- elimination of toxins
- in diarrhea after antibiotic therapy
- in intestinal infections and inflammatory diseases of the gastric mucosa
- in deficiencies of short-chain fatty acids,
- in patients after anti-cancer treatment (including intestinal inflammation after radiotherapy).

Properties

The product in the form of gastro-resistant capsules containing sodium butyric acid (sodium butyrate - 300 mg) in the form of microgranules. Butyric acid is the basic energy material for the epithelium of the digestive tract.

Daily portion	1 capsule	2 capsules
Sodium butyrate	300 mg	600 mg
of which butyric acid	240 mg	480 mg

DebuActiv 150

60
gastro-resistant
capsules

Irritable Bowel Syndrome - IBS

Properties

Sodium butyrate in the form of microgranules
- an active substance placed in a lipid matrix.
Gradual, slow release over the entire length of the intestine. Neutralization of taste and aroma properties

Daily portion (1 capsule):

sodium butyrate	150 mg
in which butyric acid	120 mg

Indications:

- Irritable Bowel Syndrome (IBS)
- Functional gastrointestinal disorders such as: chronic constipation, stomach pain, flatulence, diarrhea
- In disorders of the intestinal flora, after long-term antibiotic therapy
- In food deficiencies (insufficient fiber supply)
- In diseases of the large intestine with atrophic changes stomach mucose membrane
- In absorption disorders leading to a deficiency of ingredients nutrition, weight loss or abnormal growth in children

UNIPRO®

KreoActiv Digestion

Supports digestion

Properties

Food for special medical purposes. The product contains **pork pancreatine in an gastro – resistant capsule**. After dissolving the capsule in the small intestine, enzymes with lipolytic, amylolytic and proteolytic activity are released, which allow digestion of fats, starch and proteins.

50
gastro-resistant
capsules

Indications

For the dietary management of digestive disorders in the exocrine pancreatic insufficiency in children and adults that relates to:

- cystic fibrosis,
- chronic pancreatitis,
- conditio after removal of pancreas (pancreatectomy),
- condition after removing the stomach (gastrectomy),
- pancreatic cancer,
- condition following gastrointestinal anastomosis (e.g. gastroenterostomy),
- narrowing of the pancreatic duct or bile common duct (e.g. due to cancer),
- Shwachmana-Diamonda syndrome,
- condition following an attack of acute pancreatitis and initiation of enteral or oral nutrition.

1 gastro – resistant capsule contains 150 mg of pancreatine with the activity of:

lipase	10 000 j. Ph.Eur.
amylase	8 000 j. Ph.Eur.
proteases	600 j. Ph.Eur.

Recobios

Synbiotic

Properties

Recobios is a preparation developed in accordance with the recommendations of the World Gastroenterological Organization (WGO). Recobios includes, among others *Lactobacillus rhamnosus* GG bacterial strain showing a beneficial effect during radiation diarrhea and accompanying chemotherapy. Products contains ingredients that alleviate the symptoms of irritable bowel syndrome (IBS), such as abdominal pain, flatulence, abdominal discomfort, change of bowel movements (diarrhea or constipation). In addition, the strains of bacteria contained in Recobios support the eradication of *Helicobacter pylori* bacteria and reduce the side effects of antibiotic therapy (e.g. diarrhea). The gastro – resistant capsule protects the bacterial strains contained in the preparation against the action of gastric juice, thanks to which they reach the intestines, i.e. the place of their target activity.

20

gastro - resistant capsules

Indications

- in irritable bowel syndrome,
- during eradication of *Helicobacter pylori* bacteria,
- during antibiotic therapy,
- during oncological radiotherapy and chemotherapy.

Daily portion	1 capsule
<i>Lactobacillus rhamnosus</i> GG	10 x 10 ⁹ CFU
<i>Lactobacillus plantarum</i>	10 x 10 ⁹ CFU
<i>Lactobacillus reuteri</i>	2 x 10 ⁸ CFU
<i>Bifidobacterium infantis</i>	1 x 10 ⁸ CFU

SanBiotics IBS

20
gastro - resistant
capsules

Indications

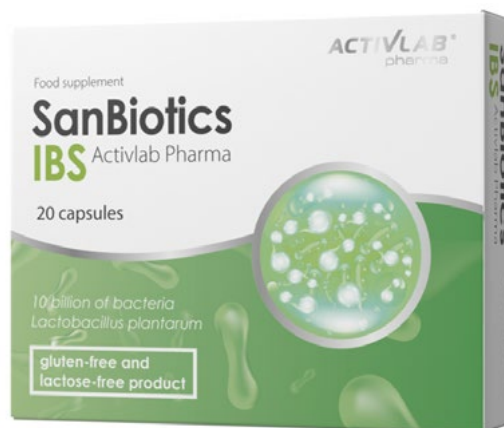

- complements the natural bacterial flora of the digestive tract.
- take the capsules on an empty stomach or with a meal
- lactose and gluten free
- can be used in children over 3 years of age. In the case of administration to children, you can open the capsule and dissolve its contents in a lukewarm or cold liquid: water, tea, milk. Consume immediately after preparation.
- can be used with antibiotic therapy, it is best to continue taking the product up to 14 days after the end of antibiotic administration.

Properties

SanBiotics IBS is a probiotic bacteria *Lactobacillus plantarum*, which are components of the intestinal microflora. Total number of probiotic bacteria is 10 billion CFU.

Daily portion	1 capsule
<i>Lactobacillus plantarum</i>	1 x 10 ¹⁰ CFU*

* CFU – colony-forming unit

SanBiotics STRESS

20

KalmStres

60
tablets

Properties

It is a product that contains natural herbal ingredients:

Powdered hop cones (*Humulus lupulus*)

- have a soothing effect on the nervous system,
- used in the case of central nervous system stimulation and difficulty falling asleep.

Valerian root extract (*Valeriana officinalis*)

- helps to maintain natural sleep,
- helps to maintain the proper quality of sleep,
- helps to cope with the stress associated with an intense mode life,
- supports mental well-being
- in case of tension and stress, - helps in mental and physical relaxation,
- helps in falling asleep.

Yellow gentian root (*Gentiana lutea*)

- traditionally used in states of mental and physical fatigue,
- supports physical and mental abilities.

The product is safe to use and is not addictive

Indications

The product is recommended for adults and adolescents over 12 years of age in cases of:

- feelings of mild nervous tension,

NeuroLip Extra

30
capsules

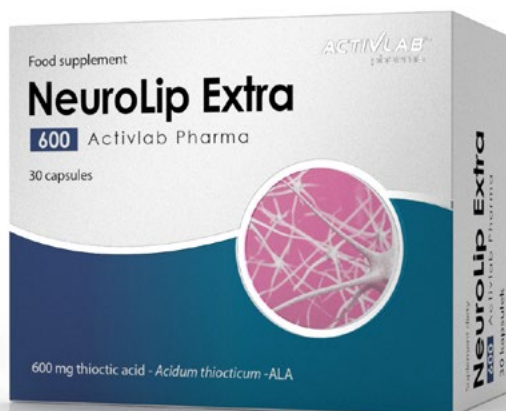

For diabetics and people with a tendency to diabetes

Properties

Dietary food for special medical purposes, containing alpha-lipoic acid (thioctic acid - Acidum thiocticum) in a high dose: as much as 600 mg in one capsule !!!

Indications

- Diseases associated with diabetic polyneuropathy:
- disorders of sensation in the limbs
- burning sensation, itching, tingling
- pain in the limbs
- for people with carbohydrate metabolism disorders
- for diabetics and people with a tendency to diabetes

Daily portion (1 capsule):

Thioctic acid	600 mg
---------------	--------

UrydynActiv

30
capsules

Rebuilding damaged nerves and supporting regenerative processes

Properties

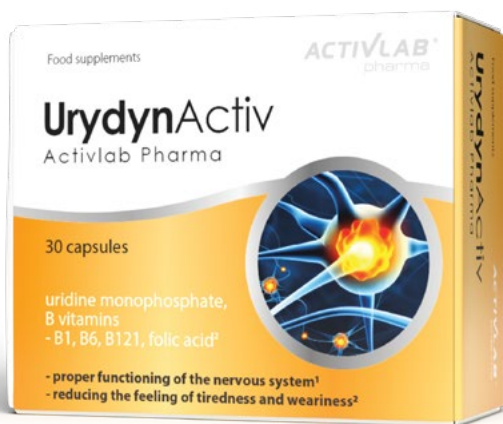

Product supplementing the daily diet in uridine monophosphate, B vitamins - B1, B6, B12, as well as folic acid.

**NERVOUS SYSTEM SUPPORT
AFTER COVID 19**

Indications

Supplementation with the ingredients of the product is especially recommended for people with:

- back pain
- neuralgia
- polyneuropathies.
- problems with the nervous system after COVID 19

Essepatil EXTRA

50
softgel capsules

Supports normal functioning of the liver

Properties

It is a diet supplement that contains soy phospholipids for supplementing the diet with substances that have a beneficial effect on liver function and regeneration.

Daily portion	2 capsules
Soya phospholipids	600 mg
including choline	16,8 mg

Advantages

- Product containing 300 mg soy phospholipids
- Accelerates regeneration of liver cells
- Facilitates removal of harmful products of metabolism from the body
- Improves fat digestion
- Has an attractive price

Indications

Used in states:

- After eating heavy meals
- After drinking alcohol
- During periods of high drug intake

HepaFit FORTE

30
tablets

Supports liver function and helps to maintain a healthy body weight

Properties

CHOLINE is one of the components of phospholipids, which are a natural component of the membranes of liver cells - hepatocytes.

*Artichoke leaf extract (*Cynara scolymus*) supports detoxification and digestive juice flow, maintains a healthy liver and helps maintain normal cholesterol levels.

** The extract from the leaves of the Paraguay holly (*Ilex paraguariensis*) has stimulating and toning properties, helps to maintain a healthy body weight and contributes to the degradation of lipids.

* Chicory root extract (*Cichorium intybus*) supports digestion and the proper functioning of the liver. Turmeric longa rhizome extract (*Curcuma longa*) is a source of turmeric, which: - supports appetite and improves digestion, - supports the digestion of fats, - prevents the accumulation of fats and facilitates their removal from the liver.

Indications

- Supports appetite and improves digestion,
- Supports the digestion of fats,
- Prevents the accumulation of fats and facilitates their removal from the liver.

Daily portion (6 tablets daily)

L-ornithine L-aspartate	600 mg
Choline	210 mg
Artichoke leaf extract (<i>Cynara scolymus</i>)	150 mg
Paraguay holly (<i>Cichorium instybus</i>)	150 mg

dandelion (70 mg) – supports the removal of excess water from the body and supports natural detoxification.
goldenrod (30 mg) – helps remove excess water from the body and supports natural detoxification.

Indications

- Removal of excess water from the body
- Weight reduction
- Elimination of toxins
- Water cellulite

Daily portion (1capsule)	
Nettle extract	150 mg
Green tea extract	100 mg
Prickly pear fig	100 mg
Grape seed extract	80 mg
Dandalion extract	70 mg
Golderrod extract	30 mg

Orthopedics and Traumatology

Sinodrial

2x2ml
Pre-filled syringe

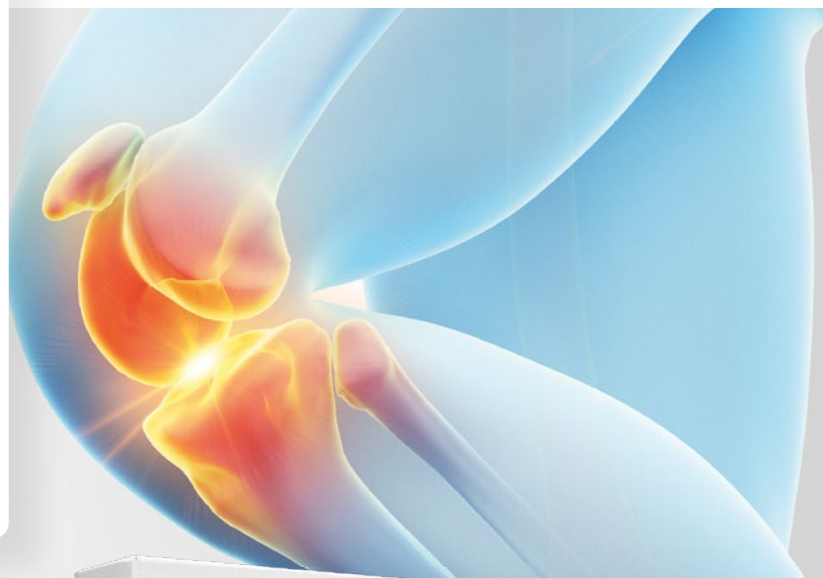

A new generation of intra-articular injections

Indications

- SINODRIAL is a sterile, biodegradable, isotonic gel for intra-articular use.
- SINODRIAL is a substitute for synovial fluid, which, thanks to its viscoelastic and lubricating properties, helps to restore the rheological state of joints changed in patients with osteoarthritis of the knee joint (OSTEOARTRITIS). The preparation improves the properties of the synovial fluid of the knee joint, protects this joint, and thanks to the presence of amino acids, it increases the production of type II collagen. SINO-DRIAL therapy improves joint functionality and reduces pain.
- SINODRIAL acts only in the joint where it is injected without exerting any systemic effect

Properties

SINODRIAL is a medical device intended for injection into joints as a supplement to the synovial fluid. SINODRIAL consists of the hybrid: M-HA + H-HA hyaluronic acid with an average molecular weight (3 million Da) obtained from Streptococcus equi bacteria and amino acids (L-proline, L-hydroxyproline, Glycine, L-lysine HCL). Hyaluronic Acid Concentration: 25 mg / ml in physiological buffer.

Fluicondrial M

Hyaluronic acid for intra-articular administration

Properties

Supplementation with hyaluronic acid increases the viscosity and elasticity of the synovial fluid and increases the non-slipperiness of the articular cartilage. Hyaluronan also has properties that modify the symptoms of degenerative disease.

FLUICONDRIAL M is sterile injectable gel, biodegradable and isotonic, for intra – articular use; consists of medium molecular weight hyaluronic acid produced by Streptococcus Equi at a concentration of 20 mg/ml.

FLUICONDRIAL M is characterized by viscoelastic properties, which allow the synovial fluid viscosity present in the joint cavity to be normalized. Each pack contains one FLUICONDRIAL M syringe and a product leaflet.

FOR MEDICAL USE ONLY

The image displays three boxes of Fluicondrial M, each containing a pre-filled syringe. The boxes are labeled 40, 60, and 80 mg. To the right of each box is a white box with a black border containing the dosage information in mg / ml. To the right of each dosage box is a grey box with white text containing the product name and the amount of hyaluronic acid in a 2, 3, or 4 ml ampoule.

Fluicondrial M 40 mg	Fluicondrial M 60 mg	Fluicondrial M 80 mg
40 mg / 2 ml	60 mg / 3 ml	80 mg / 4 ml
Fluicondrial M 40 mg 40 mg of hyaluronic acid in a 2 ml ampoule	Fluicondrial M 80 mg 60 mg of hyaluronic acid in a 3 ml ampoule	Fluicondrial M 80 mg 80 mg of hyaluronic acid in a 4 ml ampoule

FLUICONDRIAL®

Hyaluronic acid for intra-articular administration

Therapy of
joint
diseases

Way of use

FLUICONDRIAL M 40 mg 2% – 40 mg / 2 ml

Pre-filled syringe filled with 2ml of sterile, pyrogen – free gel manufactured using 1500-2500 kilton medium chain sodium hyaluronate (approximately 1700 kilton after sterilization) at a concentration of 2% (40mg/syringe).

Use:

A preliminary cycle is recommended. From 2-3 treatments at an interval of not less than one week, depending on the needs of individual patients. Then possibly maintenance sessions according to medical recommendations.

FLUICONDRIAL M 80 mg 2% – 80 mg / 4 ml

Pre-filled syringe filled with 4ml of sterile, pyrogen – free gel manufactured using 1500-2500 kilton medium chain sodium hyaluronate (approximately 1700 kilton after sterilization) at a concentration of 2% (80mg/syringe).

Use:

A preliminary cycle is recommended. From 1-2 treatments at an interval of not less than one week, depending on the needs of individual patients. Then possibly maintenance sessions according to medical recommendations.

FlexActiv EXTRA

Shiny, healthy hair

Properties

High content of biotin - 10 mg. Biotin EXTRA Activlab Pharma is a product that strengthens hair, skin and nails. The high content of biotin helps keep your hair in good condition, strengthens it and restores a healthy, shiny look.

The copper contained in the product strengthens the hair colour. Zinc helps to maintain healthy nails and beautiful skin, protecting its cells from oxidative stress.

Indications

- weakened, brittle and hair that is falling out
- hair without gloss, matte, damaged by hairdressing
- brittle, splitting nails
- dull, gray skin, devoid of shine

Breastfeeding Support

30
capsules

Stimulation of lactation

Properties

The rich composition of the natural herbs and lecithin ensures the stimulation of lactation and provides the right amount of nutrients.

Lecithin reduces the viscosity of your breast milk, making it less likely to clog milk ducts in your breast.

Anise can be used to treat clogged ducts and other problems in the milk glands, by maintaining constant milk flow.

Blessed thistle, fennel, moringa and hops are commonly used as an herbal galactagogue. A galactagogue is a food, herb, or medication that increases the flow of breast milk, usually by increasing prolactin levels.

Fenugreek, a type of seed, can help increase your breast milk supply.

Nutrition facts - daily portion (1 capsule)	
Lecithin	100 mg
Anise (<i>Pimpinella anisum</i>) ext.	100 mg
Blessed Thistle (<i>Cnicus benedictus</i>) ext.	100 mg
Fennel (<i>Foeniculum vulgare</i>) ext.	100 mg

Ashwagandha

Physical stress adaptogen

Properties

Ashwagandha (Indian Ginseng) is classified as adaptogenic substances i.e. herbs, which have antioxidant properties and contribute to optimal mental and cognitive activity.

Indications

Supplementation with ashwagandha is especially recommended during periods of stress, fatigue or problems with concentration. The product may be used for long periods of time.

Ashwagandha is more and more recommended to sportsmen due to its versatile action.

60
capsules

Daily portion	1 capsule
Ashwagandha root extract	300 mg
including withanolides	21 mg

Bacopa

60
capsules

Concentration | memory | cognitive abilities **Intelligence**

Properties

BACOPA is a supplement containing a standardized leaf extract from thyme-leaved gratiola (Bacopa monnieri).

This plant is considered to be an adaptogen: it supports memory and cognitive functions, which is especially important in elderly people due to the physiology of the aging process. It improves brain functions - learning and memorizing skills and can increase concentration and intelligence. Supplementation with BACOPA is particularly recommended during periods of intensive learning (i.e. exams), stress or problems with concentration. The product can be used for long periods of time.

Daily portion	1 capsule
Thyme-leaved gratiola extract	300 mg
including bacopasides	60 mg

Curcuma Caps

60
capsules

The product contains a highly concentrated 10: 1 extract from turmeric, which is a source of bioactive curcumin and standardized 95% piperine – black pepper extract. One capsule provides **500 mg of extract, equivalent to 5 g of turmeric!**

Piperine increases the bioavailability of curcumin from the gastrointestinal tract. Turmeric:

- supports the immune system and helps maintain the health of the lungs, upper and respiratory tract,
- has antioxidant properties,
- stimulates the appetite and improves digestion,
- supports the digestion of fats,
- prevents the accumulation of fats and facilitates their removal from the liver,
- supports the work of the liver and bile ducts.

Indications

- Support for immunity
- Improving the digestion of fats
- Stimulating the appetite
- Support for the work of the liver and bile ducts

Daily portion	1 capsule
Turmeric extract	500 mg
Piperine	5 mg

Kudzu

60
capsules

For alcohol and nicotine addiction

Properties

It is a product containing Kudzu root extract (Pueraria Montana), which is especially recommended during periods related to limiting of alcohol consumption and smoking.

Indications

Recommended during periods related to limiting of alcohol consumption and smoking.

Daily portion	1 capsule
Kudzu root extract	500 mg

Maca

60
capsules

Properties

MACA - (*Lepidium meyenii*) contains a lot of active ingredients: fiber, vitamins and minerals, amino acids, phytohormones.

This plant belongs to adaptogens: it positively affects concentration, improves memory, increases body endurance, supports physical and mental fitness and helps maintain optimal energy levels and stabilizes hormonal balance. Supports vitality and sexual performance. It has a positive effect on the construction and harmonious growth and endurance of muscle mass.

Indications

MACA supplementation is particularly recommended:

- during periods of weakness,
- chronic fatigue
- exhaustion
- decrease in libido.

The product can be used for a long time.

Daily portion	1 capsule
MACA extract	500 mg
in which Beta-Ecdysterone	2,5 mg

Rhodiola

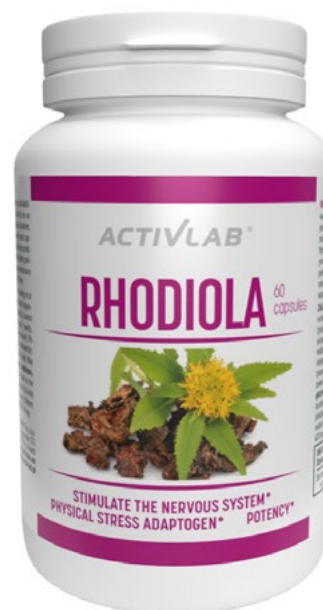

60
capsules

Stimulates the nervous system

Properties

Rhodiola is a supplement containing a standardised rhodiola rosea extract (*Rhodiola rosea*). This plant is considered to be an adaptogen: it stimulates the nervous system, maintains normal brain circulation, stimulates perception and mental activity, increases physical capacity and supports potency. It is beneficial for stress-related fatigue, headaches and sleep problems. Supplementation with Rhodiola is particularly recommended during periods of stress, fatigue, drop in work efficiency, or problems with reduced endurance or physical condition. The product may be used for longer periods of time.

Daily portion	1 capsule
Rhodiola rosea root extract	300 mg
including rosavins	9 mg

Ginseng

60
capsules

Properties

The product contains high-class extract of ginseng (Panax ginseng C.A.Meyer) standardized for the presence of active substances.

This material has been used for centuries as a plant that supports the body's vitality.

Ginseng:

- helps maintain energy and vitality
- contributes to the reduction of tiredness and fatigue
- helps maintain mental performance at the correct level
- helps in maintaining sexual performance.

Daily portion	1 capsule
Ginseng extract	37,5 mg
in which ginsenosides	30 mg

ElectroVit PROBIOTICS

20
effervescent
tablets

Properties

ElectroVit PROBIOTIC is a product containing a set of enriched electrolytes **6 strains of probiotic bacteria**: *Bifidobacterium infantis* BI02, *Bifidobacterium longum* BL-G301, *Lactobacillus acidophilus* LA02, *Lactobacillus helveticus* LH060, *Lactobacillus reuteri* LRE02, *Lactobacillus rhamnosus* GG and vitamin C. Vitamin C contained in the product helps in the proper functioning of the immune system.

Indications

Electrolytes and probiotics are especially recommended for people suffering from fever, diarrhea and vomiting.

During fever, vomiting, diarrhea, the body loses fluids - not only water, but also the ions contained in it. Therefore, to prevent dehydration, it is recommended to drink plenty of fluids and replenish electrolytes.

- **Potassium** helps in the proper functioning of the neuromuscular system due to the fact that it is involved in the conduction of nerve impulses.
- **Chloride** is the basic anionic electrolyte.
- **Magnesium** helps maintain electrolyte balance and contributes to the reduction of tiredness and fatigue.
